## **PRESIDENT'S MESSAGE**

**JOIN US AT 6PM WEDNESDAY JANUARY 12TH FOR POTLUCK WITH OUR CLUB MEETING FOLLOWING AT 7PM**

**The new bailey bridge has been installed and decked and it is all ready for use thanks to the help of a large group of volunteers who turned out on a cold and snowy December 4<sup>th</sup> to help finish the assembly and install decking it was a group made up of Sno-Bees and Thunder chickens members and with us all working together turned what would have been a full weekend of work for a normal work crew into about 5/8 of one day's work.**

**Make sure to cross the bridge on one of your rides this season its located on the Dugout trail connecting the Sno-Bees with the Barre Town Thunder Chickens trail system heading towards Websterville it is a large change for our club from the old suspension bridge that we have used since 1971 to cross the East Branch of the Winooski.**

**The club voted to dedicate the new bridge to Wayne Pelkey and Eucy Messier (deceased) two past Sno-Bee Presidents and longtime club icons who helped make our club one of the leaders in the greater central VT area the club has a committee working on just how we will honor these men with marking the bridge to these two club benchmarks details will follow with a formal dedication taking place next fall.**
